

10 TIPS FOR ESTABLISHING DOMICILE IN A TAX-FRIENDLY JURISDICTION

November 2016

Author: Daniel P. Fitzgerald

In this presentation, Daniel P. Fitzgerald, a trusts and estates attorney with Cummings & Lockwood, discusses 10 things you should know about domicile planning. As baby boomers migrate South, Northeastern states are aggressively auditing income tax returns of former residents and estate tax returns of non-residents who own property in another state. This presentation focuses on best practices for clients who have switched the state of their income tax residence or are planning a switch of their estate tax domicile. (14:43)
